

# GCSE Citizenship Studies

Here, you'll find resources and tools to help you to revise and prepare for your exam. Ask your teacher for their advice and materials as well.

## Past Question Papers

Working through past papers will help you get an idea of the kind of questions you can expect. Try answering them as if under exam conditions to help you develop your exam writing skills. You can find them here: <https://www.aga.org.uk/find-past-papers-and-mark-schemes>

## Subject Specification

The subject specification, or syllabus, can help with revision. You can find out what you're expected to have learnt and the skills you should have developed while working through the subject content. This will help you understand what's being assessed in your exams.

You can find this on Firefly here: <https://jhs.fireflycloud.net/citizenship/gcse-citizenship-revision/additional-resources>

## Other Resources on Firefly

There is a wealth of information on Firefly on the Citizenship resource pages, from lesson materials, video clips, articles and revision materials. Find out more here: <https://jhs.fireflycloud.net/citizenship>

## Revision guide

You can purchase revision guides in most bookshops or online. There are also a number available to borrow from the school library.

## PDE - Post-16 Options

During Year 11, students must decide on the future of their education. All young people in England are required to continue in education or training until their 18th birthday.

This doesn't necessarily mean staying in school.

Young people can opt to study or train in any of the following ways:

- By studying full-time in a school, college or with a training provider. The main options are A levels, T levels, Applied Qualifications or Technical/Vocational Qualifications. Many young people also take a part-time job alongside.
- By working or volunteering full-time, combined with part-time education or training. Combining work and study can be a good way to get work experience while continuing in education. The main options are apprenticeships, traineeships or a School Leaver Scheme.

To compare the options and for free personalised support from a careers adviser, visit [the National Careers Service](#) webpage.

If your child has an Education Health Care (EHC) Plan, there are specific options that may be more suited to them. You can compare these [here](#).

Students will be supported in their post-16 planning and applications in their PDE lessons. They should also ask their PDE teacher if they would like to speak to an independent careers advisor in school.
